Dear Editor,

Having ascertained the Pendulum Responses of a number of Dowser's over the past six months to the '4 Question Format', ie. YES, NO NEUTRAL RESPONSE and IDIOT RESPONSE, I enclose for publication the tabulated Pendulum Responses of nine Dowser's.

This reveals that no two Dowser's have all four Responses the same.

It will be noted that the 'type' of Response has a total of seven varied configurations. These are Clockwise, Anti-clockwise, East/West, North West / South East, North East / South West, and Stationary.

I would be interested to know if any other BSD Members have carried out a similar exercise and with what result.

*John Wills Browne, Isle of Man*
